

PREFACE

This Manual is the first attempt by the Council of Twelve to recapture the prestige and skill of our warriors since the destruction of the Warrior Academy on Caprica in 6549. It is dedicated to the 68.6 billion people who lost their lives during that destructon. It is intended to broaden your education and to make you the finest warriors since the Final Destruction.

It is divided into 3 sections:

1. Knowledge
2. History
3. Military

The Military Section is divided to make your transition easier. Good luck and protect as well.

Commander Adama
And The Council of 12
