

SOLONITE

SOLONITE BANK

NOTES

1. SOLONITE IS THE MOST DESTRUCTIVE EXPLOSIVE TO BE DEVELOPED BY MAN WHICH DOES NOT PRODUCE MASSIVE RADIATION FALLOUT. SOLONITE IS PRODUCED FROM THE SAME FUEL THAT IS USED ABOARD COLONIAL SPACECRAFT.

2. SOLONITE IS OFTEN USED BY RAIDING PARTIES TO DESTROY ENEMY FUEL DUMPS, GROUND BATTERIES, COMMUNICATIONS, ETC. SOLONITE IS PARTICULARLY USED FOR THIS PURPOSE BECAUSE OF ITS SIZE AND WEIGHT, TO FACILITATE ITS PLACEMENT ON OR NEAR ITS TARGET. SOLONITE HAS A SPECIAL MAGNETOMIC ADHESION PLATE WHICH WILL ADHERE TO ALL KNOWN METALS AND MOST OTHER SURFACES.

3. CYLONS ARE KNOWN TO POSSESS SOLONITE AND UTILIZE IT IN MANY OF THE SAME WAYS AS COLONIALS. ONE NOTEABLE DIFFERENCE IS THAT THE CYLONS USE IT IN THEIR SUICIDE, OR GHOST RAIDERS, WHICH ARE PACKED WITH THE EXPLOSIVE AND THEN RAMMED INTO ENEMY SHIPS.
