

JUPITER 2 OPERATORS MANUAL

A MESSAGE FROM THE PRESIDENT

THE WHITE HOUSE

October 16, 1997

Fellow Americans, friends all over the world,

Upon the success of this mission will depend whether the explosive increase of population on this planet will ultimately lead to a disaster from which none will be exempt, or a new dawn of plenty for all of humanity. None can predict the outcome of this audacious venture to the very stars. To those who have staked their lives upon this bold expansion of man's horizons, I humbly say: "Go in peace. The prayers of Mankind are with you."

The President of
The United States of America

1600 PENNSYLVANIA AVENUE, WASHINGTON D. C.
