The Moonbase Alpha Technical Notebook, Fan Edition, is a labor of love dedicated to one of the most innovative, creative sagas of our day. Painstakingly reproduced in an effort to preserve the material of the Official Edition, this notebook was produced for and by dedicated Space: 1999 fans and collectors for the enjoyment and enrichment of all.

Believed to be free of copyright restrictions, this notebook was reproduced for the members of the Space: 1999 Alliance of greater Georgia. It was provided without cost to each member in good standing as of February, 2001.
